### **PECO Pallets Now Shipping into Loblaws Stores throughout Canada**

**May 9, 2013** (Irvington, NY): PECO Pallet, Inc. recently announced that Loblaw Companies Limited is now accepting shipments on PECO pallets at all of its locations throughout Canada.

With more than 1,000 stores across the country, Loblaw Companies Limited is Canada's largest grocery retailer. Over 14 million customers shop at Loblaws stores each week, accounting for nearly a third of the total Canadian grocery market. Loblaws currently includes more than 20 different regional banners, including Loblaws, Real Canadian Superstores, Zehrs, Provigo, and more.

PECO Pallet provides its distinctive red wood block pallets to leading grocery and consumer goods manufacturers, who use them to ship their products to retailers, club stores, and distribution centers throughout the U.S., Canada, and Mexico. Empty pallets are then returned to a PECO depot, where they are inspected, cleaned, and repaired as needed before being reissued.

Adrian Potgieter, PECO Pallet's Senior Vice President of Sales, stated, "Loblaw Companies has a long history as one of Canada's leading retailers, and PECO Pallet is proud to partner with such a great organization. We have earned Loblaws' endorsement by consistently delivering high-quality pallets that meet or exceed their new pallet requirements. As PECO continues to expand our North American service network, we are working closely with renters, distributors, and retailers to ensure a smooth transition at all Loblaws locations."

###

#### **About PECO Pallet:**

PECO Pallet is a North American leader in pallet rental services and provides millions of its red wood block pallets to major grocery and consumer goods manufacturers throughout North America.

PECO Pallet's tremendous growth over the last decade reflects the company's overall commitment to exceptional quality and genuine passion for customer service excellence. PECO is headquartered in Irvington, New York and maintains over 500 service centers and manufacturing plants throughout the U.S., Canada, and Mexico.
